

FAMILY PET CLINIC OF REDONDO BEACH

“COMPLIANT DENTAL PACKAGE”

Adult = cats and small breed dogs younger than 9 years of age, medium breed dogs younger than 8 years, large breed dogs younger than 7 years, and giant breed dogs younger than 6 years.

- \$399 if less than 50 lbs.
- \$439 if greater than 50 lbs.
- \$479 if greater than 90 lbs.
- **Full “retail value”: \$650**
- **Pre-paid at the time of the pre-anesthetic wellness blood screen.**

Senior = cats and small breed dogs older than 9 years of age, medium breed dogs older than 8 years, large breed dogs older than 7 years, and giant breed dogs older than 6 years.

- \$499 if less than 50 lbs.
- \$539 if greater than 50 lbs.
- \$579 if greater than 90 lbs.
- Seniors have chest x-rays taken the morning of the dental cleaning and prior to going under anesthesia. This helps us rule out hidden senior conditions such as heart disease and lung cancer.
- Seniors get expanded pre-anesthetic lab testing that includes serum chemistries, blood count, thyroid level and urinalysis.
- **Full “retail value”: \$950**
- **Pre-paid at the time of the pre-anesthetic senior blood/urine screen.**
- “Super Senior” abdominal ultrasound with package: \$215 (retail \$230).

***BRACHYCEPHALIC CARE \$150-200: Brachycephalic breeds including English Bulldogs, French Bulldogs, and sometimes Boston Terriers, Lhasa Apsos, Shih Tzus and Pugs require a dedicated nurse present at all times, and more rigorous, intensive, and extended pre-oxygenation and post-anesthetic monitoring.

*****Package does NOT include additional medical services such as extractions, pain control, extended anesthesia time, laser therapy, and dispensed medications. Any additional fees will be paid at the time of patient discharge. ADDITIONAL COSTS MAY RANGE FROM \$50-\$1500.**

***Patient has 6 weeks to complete the comprehensive dental cleaning which includes nausea medication, gas anesthesia, IV catheter and fluids, comprehensive anesthetic monitoring, dental cleaning/scaling, full set of dental x-rays, fluoride polish, full discharge instructions including home dental care recommendations, and a complimentary recheck appointment to assess healing in the case of extractions or oral surgery.
