

FAMILY PET CLINIC OF REDONDO BEACH

DOG AND CAT SPAY AND NEUTER PACKAGES

All spays and neuters here at Family Pet Clinic include a pre-anesthetic blood screen done ahead of time. This wellness panel establishes a baseline for the patient as well as detects problems early if present. On surgery day, the patient is given a sedative and a nausea control injection. Pets are administered fluids to maintain hydration. All patients are given pain control that includes a local anesthetic block at the surgery site as well as a pain control injection before they wake up. Pets are monitored by a dedicated “anesthetist” that documents the heart rate, anesthetic depth, oxygen level, blood pressure, and body temperature. All pets go home with 3-7 days of oral pain control and an Elizabethan Collar.

All packages are pre-paid at the time the blood is drawn. Pets receiving additional services the day of surgery, such as microchips, pedicures, therapy laser (photobiomodulation), vaccines, dental cleanings, umbilical hernia repairs, “Brachy Care”, brachycephalic airway corrective surgeries, or additional pain medications or sedatives as requested or recommended, will have added fees. Pre-op lab work is valid for 6 weeks.

Only healthy puppies, kittens, and adult dogs and cats 6 years of age or younger qualify.

- Dog Spay < 60 lbs: \$459
- Dog Spay > 60 lbs: \$479
- Cat Spay: \$449
- Dog Neuter < 60 lbs: \$399
- Dog Neuter > 60 lbs: \$429
- Cat Neuter: \$299
- Brachycephalic Care: \$150-\$200
 - This additional fee is for brachycephalic breeds including all English Bulldogs and French Bulldogs, and some Boston Terriers, Lhasa Apsos, Shih Tzus and Pugs. These breeds are assigned a dedicated team member (nurse) for more rigorous, intensive monitoring and additional oxygenation.
- Obese/Estrus/Post Estrus: \$95
 - This additional fee applies if adult female dogs are overweight or if they are in heat or have had multiple heat (estrus) cycle.

Special Note: If we are not able to complete the Compliant Package for any unforeseen reason, you will be reimbursed a pro-rated amount that is calculated as the “Package” price minus the costs associated with the lab work, x-rays or sedatives used by Family Pet Clinic of Redondo Beach up to the point of withdrawal from the full procedure.
